Grapevine

Services you'll love backed by people you trust.

Problem

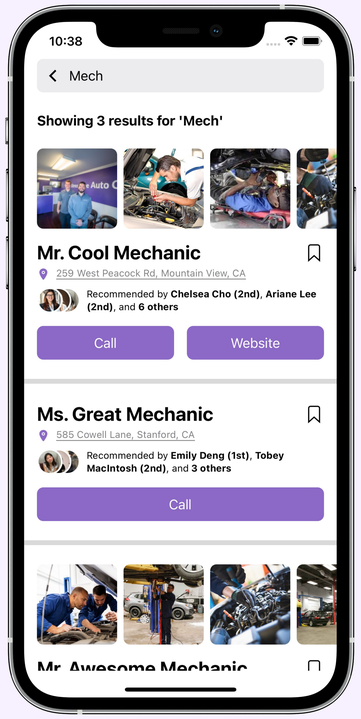
People struggle to find services that suit their personal needs, as online reviews are often unreliable and impersonal.

Solution

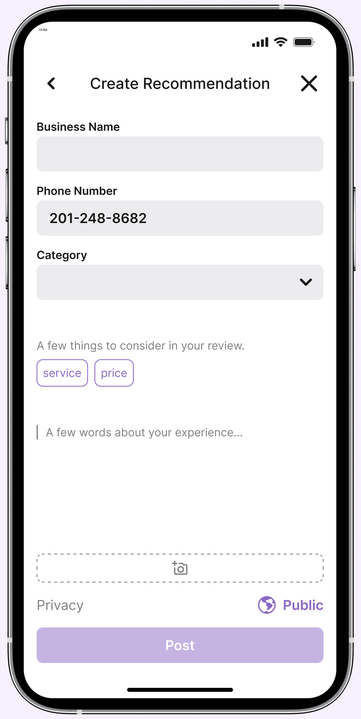
Our app facilitates the search for quality services by allowing users to seek and share vetted recommendations through an extended network of friends, encompassing a variety of needs from plumbing to child care.

Key Features

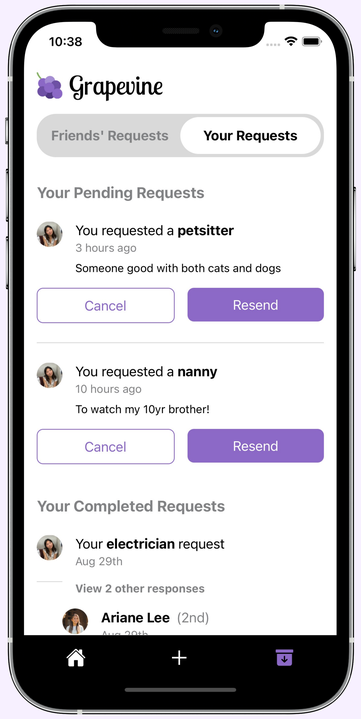
Find a Recommendation



Create a Recommendation



Request a Recommendation



Design Process

1. Problem/Solution Space
2. Fieldwork/Testing
3. Low-Fi
4. Med-Fi
